

January 9, 2018

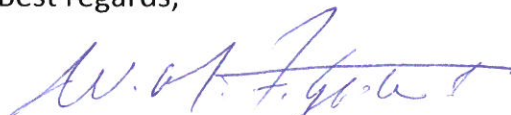

Dear Parent(s)/Guardian(s),

On behalf of the Arts Academy Charter Middle School, please accept my sincere apology for heating issues which have recently occurred in our building. Yesterday, we suffered a major heat loss which impacted everyone in the building.

Please know that the welfare of our students continues to be our paramount concern. We recognize that the cold temperatures experienced are unacceptable, and we have taken corrective measures.

We accept full responsibility for these adverse conditions, and we assure you that we have conducted a full review of our heating system. We have made the necessary repairs and adjustments, which should preclude this from happening in the future. In addition, we will be more vigilant to ensure that the conditions in the school are appropriate for our students to fully participate in the learning experience at the Arts Academy.

Best regards,

William M. Fitzpatrick  
Executive Director
