

Lintons would like to take this opportunity to introduce ourselves to the students and their families at Arts Academy Charter Middle School. We look forward to partnering with your school and improving upon what has already been established.

Lintons Food Service Management is based in Blue Bell, PA and provides food service management and delivered service to Schools, Healthcare, Rehabilitation Services, Adult Aging, Juvenile Justice and Group Homes. We take pride in managing the nutritional services for our clients and have been recognized as a Top 50 Management Company.

Our manager overseeing production and delivery to Arts Academy Charter Middle School is Samantha Long, she will be starting her second year managing our Meal Service Center. Her food and customer service experience makes her a well-rounded manager for this position. She is very excited to continue her growth and knowledge in serving Arts Academy Charter Middle School students.

Samantha will work hand in hand with the on-site cafeteria staff to ensure NSLP guidelines are met and that students receive delicious, healthy meals. She will be supported by District Manager, Allison Davis, and Director of Operations, Doug Kauffman. Our support staff does not end there, we have a great team at our corporate office that extends to, human resources, accounting, marketing and IT.

Once again, thank you for the opportunity to serve Arts Academy Charter Middle School. We look forward to a successful and long lasting partnership. Our door is always open and we encourage comments and suggestions.

Your Lintons Food Service Management Team
